HAS A RAILROAD OF HIS OWN Mexico.

Robert McClelland Buys the Line Extending from Malvern to Tabor.

WILL LOOK AFTER OPERATION OF THE LINE

Plans for Extending the System to the Missouri River May Be Considered in the Near Future.

Robert McClelland, 3008 Mason street, has purchased the interest of Tabor college in the Tabor & Northern railroad and proposes to see what he can do with it, as he now holds the controlling interest. The price paid was \$23,000.

The Tabor & Northern railroad is nine miles long, running from Malvern to Tabor, Ia. Mr. McClelland's brother was largely instrumental in the construction of the road at the time he was president of the college. People bound for Tabor had been com pelled to travel by way of a stage line and It was found to be injuring the prospects of the college. It was decided to build to Malvern and an organization was perfected with \$120,000 capital stock. Nothing like such a sum was ever paid in and the road has been a success from the first. The college has grown and so has the town of Tabor, which now boasts of 1,200 inhabi-

The road runs through an excellent section of country and connects with the Wabash and Burlington lines at Malvern. Two mixed trains each way are run daily, giving passengers good service.

It was feared that either the Burlington or Wabash would purchase the road and, even after Mr. McClelland had been announced as the successful bidder for the college's interest, speculations were rife. It was rumored that he was the agent for some corporation, but owing to his connection with the college and the friendliness of the people he was soon able to convince the people otherwise. He announced yesterday upon his return to Omaha that he intended to operate the road himself, making this his for the present.

Mr. McClelland stated that he has been in the railroad business such a short time that he has made no plans for the future of his road. He does not contemplate making any extensions just yet. He is aware that it has been rumored that an extension will be made to Nebraska City, a distance of perhaps twenty-five miles, but no move will be made until he knows just how much the road would pay. Then if the investment justifies it, perhaps he may consider the advisability of making some Nebraska connec-

SEEKING THE RIGHT-OF-WAY

Bridge and Terminal Company Commences Condemnation Proceedings in Eastern Portion of the City.

General Manager Webster of the Omaha Bridge and Terminal company has commenced condemnation proceedings for the purpose of obtaining a right of way through block 6, now occupied by the Dietz lumber yard, in the eastern portion of the city. He has also discovered a squatter of fifteen years' occupation at the interesection of Twelfth and California streets. James O'Rourke has built a snug little home there and has gradually widened the space until now he occupies a triangular section, the hypotenuse of which is 113 feet in length. The road desires to run its tracks through two corners of O'Rourke's yard, and asks to block 38, there appears to be a flaw in the title and lot 6, block 37, is also needed so they are included in the condemnation.

It is anticipated that it will take the workmen about two months to put in the crossings over the Chicago, St. Paul, Minneapolis & Omaha tracks, at Fourteenth and Cuming streets. During this time it is thought the condemnation proceedings will have been concluded so that no delay will be occasioned to the work.

The injunction suit instituted by the Barb Wire works to restrain the road from running its track over the property of the works, will be tried next Tuesday, before Judge Fawcett.

Boast of Shattered Records. The Burlington employes of the Hilnois division are boasting that all former records were shattered by the fast mail Wednesday night, when it left Chicago over an hour late. The run to Burlington, 206 miles, was made in 208 minutes, including all stops and 198 minutes actual running time. Aurora, thirty-three miles, was made in thirty-two minutes. The next forty-six miles, from Aurora to Mendota, was covered in forty minutes. Then the train settled down to real business. It fairly burned the rails from Mendota to Galesburg, the eighty miles being passed in seventy-five minutes. The forty-three miles between Galesburg and Burlington were made in

A Work of Art. The Wabash has issued one of the handsomest calendars which has been seen this year. It is an advestisement of "The Continental Limited," the new fast train on that line. The calendar is fourteen by eighteen inches in size. The background is of olive green papier mache, with cream embossed letters and a figure of a Continental soldier bearing aloft the emblem of the road. In the lower corner surrounded by embossed decorations is the calendar on sage green paper. Northwestern Passenger Agent is distributing these calenders

during the entire run was ten minutes.

nong his friends. Under a New Name. The Union Pacific, Denver & Gulf is no more, having passed from the hands of the receiver with the loss of its old name. Henceforth it will be known as the Colorado & Southern railway, or "The Colorado Road." The new management is pushing its interests by calling attention to the fact that they have the real Colorado read, a railway which is devoted to the state. The road is in good physical condition and is magnificently equipped. It consists of 1,-

Take the Daylight Train

Thousands and thousands of Omaha people have no conception of what the country between Omaha and Chicago is like.

They have made the trip to Chicago time and again, but they have never seen the Mississippi River. They know that such places as Ottumwa, Burlington and Galesburg are "on the map," but they have never yet set eyes on them.

If these people, next time they go east, will take the Burlington's daylight Chicago Special, their knowledge of the land they live in will be considerably increased. Leaves Omaha 5:49 a. m. Arives Chicago 8:15 p. m.

New Depot, 10th & Mason.

Something of a Boat. During his presence in the city Mr. Hamburg American line, took occasion to call the attention of the several local agents to the new boat which the company expects to launch soon for the accommodation of its patrons. It will be called the Deutschland and will be the largest passenger boat affoat. It will be 685 feet long, sixty-six feet at the beam and forty-two feet deep. It will have 33,000 horse power and an average speed of twenty-five knots per hour.

Out with a New Folder.

The Burlington has issued one of the largest and most complete local folders gotten out by any of the roads. It contains almost as much necessary information to travelers as the through folder. Every letter from which the folder is printed is new type. The light face figures indicate morning time and heavy dark face afternoon. There is such a distinction that one can tell at a glance without following the column down.

Railway Notes and Personals. General Manager Holdrege, General Man-derson, George W. Loomis, General Passenger Agent John Francis and C. J. Greene went to Lincoln to attend the funeral of Captain R. O. Phillips.

The Rock Island officials have changed the number of their fast mail train from 13 to 23. Railroad men wonder whether the pub-lic's superstition concerning the unlucky number had anything to do with it.

At the annual meeting of the Life Under-At the annual meeting of the Life Under-writers' Association of Nebraska, held at the lier Grand hotel, Monday evening, January 9, the following officers were elected to serve for the ensuing year: President, William Henry Brown of the Equitable Life; vice president, Simon Goetz of the Northwestern Mutual Life; second vice president, C. Z. Gould of the Pennsylvania Mutual Life; secretary, James E. Ebersole of the New secretary, James E. Ebersole of the New England Mutual Life; treasurer, J. W. Craig of the State Mutual Life; executive committee, in addition to the officers as named above, who are members ex-officio, E. R. Edmiston, Union Central Life; A. L. Wigton, Union Life; R. F. Alexander, New York Life; John Dale, Aetna Life. The executive committee organized by electing Vice President Goetz chairman.

Stove repairs of any description, 1207

We call attention to the statement of the Bankers' Life association of Des Moines. It is quite an extraordinary statement, for we see that in 1898 there was a gain of \$14,030,-000 insurance written. The death rate was 5.9 per 1,000 less than the average for the last five years. Expense of management per \$1,000 of insurance, \$1.87. The cost to a man entering at age of 40 was \$8.80 for each \$1.000. Insurance with this prosperous institution can be taken of William Ive, 417 Bee building, Omaha.

MANY ARE IN THE CONTEST

Board of Education Likely to Get Into a Deadlock tree the Election of Its Legal Advisor for the Year.

One of the most energetic political canvasses and campaigns that has diverted the attention of the Board have a price set upon his property. In lot 1, of Education for some time is taking place over the election of the attorney for the coming year. This election must be held at the meeting of the board next Monday night, and for the last few weeks political wire pulling has been at a premium over the matter until it has reached a somewhat red hot point. While the matter may be so pre-arranged that the attorney will be elected after a few ballots, yet there is a possibility of an extended fight.

There are a half dozen candidates for the position. Among those mentioned are: G. W. Covell, A. Burnett and W. A. DeBord. These three, however, are playing the parts of dark horses, for the prominent candidates are F. H. Gaines, the present attorney, and A. J. Lunt, a former member of the board. It is over these two that the wire pulling is taking place, and unless the unexpected happens one or the other will be the attorney of the board for 1899.

It looks like a neck and neck race between these two men at the present time. Lunt seemed to have the advantage a day or so ago and his supporters claimed to have eight votes pledged or promised for him, a number sufficient for election. The recent decision by Judge Fawcett, however, in holding that the city council must issue a tax levy, asked for by the board, and must also pay the deficite that have resuited as a consequence of their failure to do so in the past few years, has boomed forty-two minutes. The time lost in stops Gaines' stock considerably. The decision is looked upon as quite a feather in the present attorney's cap, and it is felt that he ought to be re-elected as a reward for the victory. He has consequently gained the votes of one or two members who have heretofore been on the fence, and it is said by his supporters that he has captured at least one of the votes which the Lunt crowd has claimed as being promised for its can-

> Small Bits of Crime. J. J. O'Brien, 1227 South Sixteenth street, left his overcoat in the hallway of the building and it was stolen by thieves.

> W. H. Proctor of the Creighton-Orpheum theater reported the theft of several articles of clothing from the dressing rooms of the theater. Burglars unlocked the rear door of J. W. Sutton's residence, 2115 Leavenworth street, while the family was absent and carried away all the valuables they could find. Among the stolen articles are two gold watches, coat and vest and some silverware.

John Carroll, 709 South Sixteenth street, left a pocketbook containing \$325 in money and checks in the bath room of a lodging house at 1917 Leavenworth street. When he went back to get it it was gone. The loss was reported to the police, but no one in the house could be found who had seen the

S. B. Crowley, Sixteenth and Lake streets, reported to the police the theft of a grip full of clothing. It was left on the platform of a Sherman avenue car. When the owner started to leave the car he discovered that his grip was missing. The conductor remembered to have seen a stranger take it and leave the car at the corner of Seventeenth and Nicholas.

SUGGEST CHANGES FOR FLAG Rearrange the Forty-Five Stars Int. the Form of One Large Star,

Says a Correspondent. OMAHA, Jan. 14.-To the Editor of The Bee: During the last session of congress there was some debate as to the necessity

of a change in the arrangement of the stars in our flag. At present there are so many white stars on the blue ground that at almost any distance the whole presents one blurred mass and conveys no meaning to the mind as to

the thirteen distinct stripes. Studying into the matter it has seemed to me the best way would be to arrange the forty-five stars into the form of one large

star. Now the forty-five stars divide equally into the five points, but any number could be added within the large star and inside the points so then it is not likely another change would ever be necessary. Then it would mean all the stars (states) would compose one nation (the large star) that would, as we believe, be known, honored and respected by all other nations. Long may it wave.

P. S .- A woman's letter is never complete without a P. S. If any of your readers are interested in this, letters to either Senator Thurston or Congressman Mercer
